Re: Mosquito Prevention

***Ford County, Kansas*** – Ford County is already in the process of treating for mosquitoes, but we need your help!

Please perform the following preventative actions on a weekly basis:

- Dump out containers with ANY standing water.
- Check the house gutters for any standing water and remove debris.
- Drill holes in the bottom of recycling containers that are left outdoors.
- Clean and chlorinate swimming pools (Don't forget standing water on top of swimming pool covers.)
- Change the water in birdfeeders and wading pools

Remember, anything that can hold standing water is a perfect breeding ground for mosquitoes.

For information on mosquito bite prevention follow the link to the CDC website

<https://www.cdc.gov/features/stopmosquitoes/index.html>
